

## § 740.5

reexport to eligible countries any commodity (but not software) eligible for License Exception CIV.

[62 FR 25457, May 9, 1997]

### § 740.5 Civil end-users (CIV).

License Exception CIV authorizes exports and reexports controlled to the ultimate destination for national security reasons only and identified by "CIV—Yes" on the CCL, provided the items are destined to civil end-users for civil end-uses in Country Group D:1. (See Supplement No. 1 to part 740.) CIV may not be used for exports and reexports to military end-users or to known military uses. Such exports and reexports will continue to require a license. In addition to conventional military activities, military uses include any proliferation activities described and prohibited by part 744 of the EAR. A license is also required for transfer to military end-users or end-uses in eligible countries of items exported under CIV.

[61 FR 64275, Dec. 4, 1996]

### § 740.6 Technology and software under restriction (TSR).

(a) *Scope.* License Exception TSR permits exports and reexports of technology and software controlled to the ultimate destination for national security reasons only and identified by "TSR—Yes" in entries on the CCL, provided the software or technology is destined to Country Group B. (See Supplement No. 1 to part 740.) A written assurance is required from the consignee before exporting or reexporting under this License Exception.

(1) *Required assurance for export of technology.* You may not export or reexport technology under this License Exception until you have received from the importer a written assurance that, without a BXA license or License Exception, the importer will not:

(i) Reexport or release the technology to a national of a country in Country Groups D:1 or E:2; or

(ii) Export to Country Groups D:1 or E:2 the direct product of the technology, if such foreign produced direct product is subject to national security controls as identified on the CCL (See

## 15 CFR Ch. VII (1–198 Edition)

General Prohibition Three, § 736.2(b)(3) of the EAR); or

(iii) If the direct product of the technology is a complete plant or any major component of a plant, export to Country Groups D:1 or E:2 the direct product of the plant or major component thereof, if such foreign produced direct product is subject to national security controls as identified on the CCL or is subject to State Department controls under the U.S. Munitions List (22 CFR part 121).

(2) *Required assurance for export of software.* You may not export or reexport software under this License Exception until you have received from the importer a written assurance that, without a BXA license or License Exception, the importer will neither:

(i) Reexport or release the software or the source code for the software to a national of a country in Country Groups D:1 or E:2; nor

(ii) Export to Country Groups D:1 or E:2 the direct product of the software, if such foreign produced direct product is subject to national security controls as identified on the CCL. (See General Prohibition Three, § 736.2(b)(3) of the EAR).

(3) *Form of written assurance.* The required assurance may be made in the form of a letter or any other written communication from the importer, or the assurance may be incorporated into a licensing agreement that specifically includes the assurances. An assurance included in a licensing agreement is acceptable only if the agreement specifies that the assurance will be honored even after the expiration date of the licensing agreement. If such a written assurance is not received, License Exception TSR is not applicable and a license is required. The license application must include a statement explaining why assurances could not be obtained.

(4) *Other License Exceptions.* The requirements in this License Exception do not apply to the export of technology or software under other License Exceptions, or to the export of technology or software included in an application for the foreign filing of a patent, provided the filing is in accordance with the regulations of the U.S. Patent Office.
